PRINCE GEORGE'S COUNTY PLANNING BOARD

STAFF REPORT

SUBJECT: Preliminary Plan of Subdivision 4-04194
Christy Clagett Property, Lots 1–20

OVERVIEW

At the writing of this report staff is compelled to recommend disapproval of this preliminary plan of subdivision. The development of this property is subject to CB-89-2004 as discussed further in Findings 2 and 3 of this staff report. CB-89-2004 establishes the adequacy of fire/rescue and police response times. The response times are not adequate pursuant to Section 24-122.01(e)(1)(D) and (E) of the Subdivision Regulations.

The property is located on Tax Map 110, Grid B-2, and is known as part of Parcel 43. The property was previously designated as Outparcel A on the approved preliminary plan of subdivision (4-02071) for the Fendal Clagett property. Outparcel A was never the subject of a record plat and is therefore an acreage parcel of land. A part of Outparcel A was conveyed from the residue of Parcel 43, pursuant to Section 24-107(c)(3) of the Subdivision Regulations, in 2005.

The property is approximately 61.76 acres and zoned R-A. The applicant is proposing to subdivide the property into 20 lots for the construction of single-family dwelling units in conformance with the conventional standards for development in the R-A Zone.

SETTING

The property is located on the north side of US 301, 300 feet west of its intersection with Old Crain Highway. All of the surrounding properties are zoned R-A. The Fendal Clagett property is abutting to the northwest, a subdivided but unbuilt 34-lot single-family dwelling unit subdivision. Other surrounding properties are generally large acreage parcels developed with single-family dwelling units.

FINDINGS AND REASONS FOR STAFF RECOMMENDATION

1. **Development Data Summary**—The following information relates to the subject preliminary plan application and the proposed development.

	EXISTING	PROPOSED
Zone	R-A	R-A
Use(s)	Vacant	Single-family dwellings
Acreage	61.76	61.76
Lots	0	20
Parcels	1	0
Dwelling Units:		
Detached	0	20

2. **Fire and Rescue**—The Historic Preservation and Public Facilities Planning Section has reviewed this subdivision for adequacy of fire and rescues services in accordance with Section 24-122.01(e)(1)(E) of the Subdivision Regulations.

The Prince George's County Fire/EMS Department has determined that the subject property is located in Fire Box number 45-01R. The 12-month average response times are:

Engine: 8.54 minutes, which is above the required 8.00-minute response time for areas inside the Rural Tier.

Basic Life Support: 8.44 minutes, which is above the required 8.00-minute response time for areas inside the Rural Tier.

Advanced Life Support: 11.12 minutes, which is above the required 10.00-minute response time for areas inside the Rural Tier.

Pursuant to Section 24-122.01(e)(2) of the Subdivision Regulations: "If any of the required statements in this subsection are not provided that meet the criteria specified in this Section then the Planning Board may not approve the preliminary plat." (CB-89-2004)

Therefore, staff is compelled to recommend disapproval of the preliminary plan of subdivision due to the inadequacies set forth above.

The Fire Chief reported that the current staff complement of the Fire/EMS Department is 97.97 percent, which is within the standard of CB-89-2004.

The Fire Chief has reported, by letter dated April 14, 2005, that the department has adequate equipment to meet the standards stated in CB-89-2004.

3. **Police Facilities**—The Prince George's County Planning Department has determined that the subject property is located in District V. The preliminary plan has been reviewed in accordance with Section 24-122.01 (e)(1)(D) of the Subdivision Regulations.

The Prince George's County Police Department report that the average yearly response times for that District are 38.72 minutes for nonemergency calls, which does not meet the standard of 25.00 minutes, and 10.86 minutes for emergency calls, which does not meet the standard of 10.00 minutes.

Pursuant to Section 24-122.01(e)(2) of the Subdivision Regulations: "If any of the required statements in this subsection are not provided that meet the criteria specified in this Section then the Planning Board may not approve the preliminary plat." (CB-89-2004)

Therefore, staff is compelled to recommend disapproval of the preliminary plan of subdivision due to the inadequacies set forth above.

The Police Chief reported that the current staff complement of the Police Department is 1,302 sworn officers and 43 student officers in the academy, for a total of 1,345 personnel, which is within the standard of 1,278 officers.

RECOMMENDATION

DISAPPROVAL DUE TO INADEQUATE FIRE, RESCUE AND POLICE SERVICES PURSUANT TO SECTION 24-122.01(e)(2) OF THE SUBDIVISION REGULATIONS.
